

Pledge Your Support to Vote YES for a Right to Clean Water and Air!

This fall, New Yorkers have a historic opportunity to add environmental rights to the New York State Constitution. By voting YES on the ballot question, we can enshrine a right to clean air and water and a healthful environment into the Bill of Rights.

The New York Constitution protects our most sacred civil liberties, such as our right to free speech, worship, and assembly, but not a right to a clean and healthful environment. The inclusion of environmental rights, critical to sustaining healthy lives for current and future generations, would provide these important protections as constitutional rights **for all** New Yorkers. Pledge your support by signing on to this petition today!

I pledge to vote YES for “clean air and water and a healthful environment” to be added to the New York State Constitution because every New Yorker, regardless of the color of their skin, their zip code, or how much money they make has the right to clean air and water and a healthful environment.
