

RALLY FOR THE NEW YORK GREEN AMENDMENT

bit.ly/GANYrally

*New York's Green Amendment says:
Each person shall have a right to clean air and water, and a
healthful environment.*

Will You Stand Up For New Yorkers Constitutional Right to a Healthy Environment?

Governor Hochul, the NY Attorney General & NY Department of Environmental Conservation claim that it is within their “discretion” to decide whether or not to honor and enforce your environmental rights.

They've got it wrong!
The Constitution is not discretionary.

Join us in 2 ways to deliver this positive message:

- **Sign the letter** we will be delivering to government offices on July 12
- **Join us July 12** at noon in Albany for a positive rally and march to deliver the message: “Our environmental rights are mandatory, not discretionary”

You can find links and
details about the rally at:
